

TEAM-BASED CONTRACT RECRUITING

On-Demand Contract Recruiters

The Recruiting Division employs a unique team-based, on-demand Contract Recruiting model for talent acquisition that yields better results than a traditional recruiting firm. Similar to a contract recruiter, instead of charging placement fees, we instead charge a fixed rate and become a seamless extension of your team.

Team-Based Contract Recruiting

A more flexible, scalable and cost-effective way of hiring a Contract Recruiter

A complete On-Demand recruiting team consisting of Delivery Manager, a Contract Recruiter, and a Sourcer provides the full-life cycle recruiting that will take your business to the next level.

Our team-based, plug & play contract recruiting solution handles the entire sourcing and recruiting process, and is completely plug & play, and Instant-On/Instant-Off.

No more scrambling for recruiters when you need them most. Our team-based contract recruiting services take your focus off of hiring problems and lets you keep it where it belongs – on your core business operations.
